

Power of CICD

CICD

CI/CD is a method to frequently deliver apps to customers by introducing automation into the stages of app development and delivery operations.

WHY CICI

CI/CD is a solution to the problems integrating new code can cause for development and operations teams

Technical Team

One Team

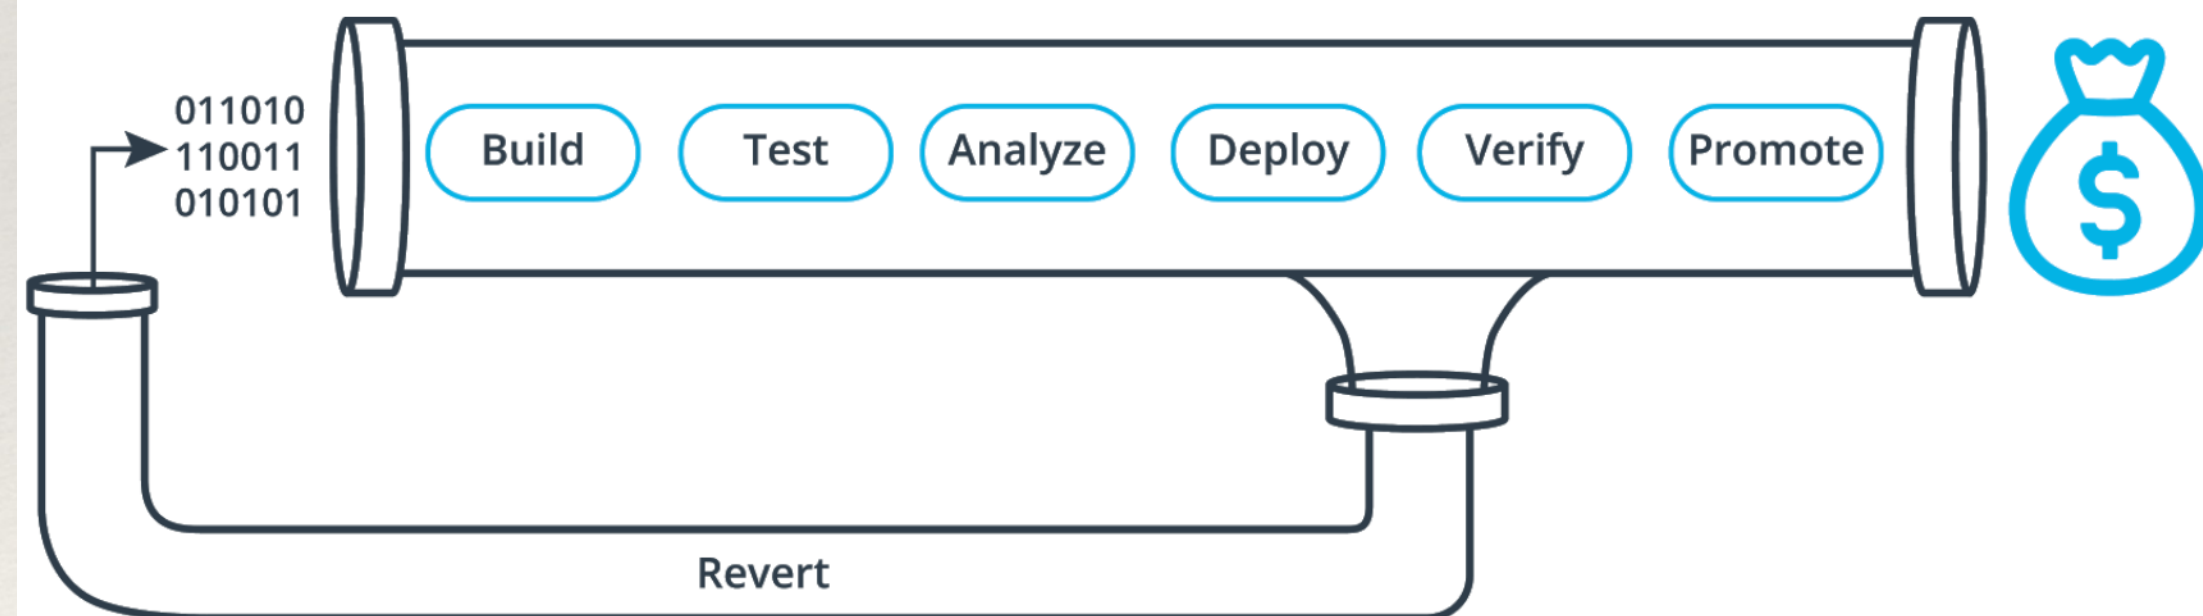

Business Team

- Production will be available for users
- Features will be built correctly

Fundamentals of CI/CD

The CI/CD Pipeline

Benefits of CI/CD

- Less developer time on issues from new developer code.
- Less bugs in production and less time in testing.
- Prevent embarrassing or costly security holes.
- Less infrastructure costs from unused resources.
- New value-generating features released more quickly.
- Less time to market.
- Reduced downtime from a deploy-related crash or major bug .
- Quick RollBack.
- Increase fast profit.
